

# Scale-up Day for Green Chemistry Startups

Start Time: Tuesday, July 9, 2024 10:00 am

End Time: Tuesday, July 9, 2024 06:00 pm

EINS Event Hall (Ernst-Reuter-Platz 1)

## [greenCHEM](#) presents:

An exhilarating day dedicated to exploring the intricacies of scaling up in the deep-tech industry, with a special emphasis on chemistry. Scale-Up Day brings together visionaries, industry experts, startups, and students to delve into the challenges and opportunities of technical scale-up. Whether you're a burgeoning startup seeking the best path forward or a student eager to connect with future employers and innovative ideas, Scale-Up Day offers a dynamic platform for learning, networking, and inspiration.

### As Start Up:

Get insights about pricing, cost-sharing possibilities, Go-To-Market strategies, etc. from well-known industry experts with decades of experience. Find out what possibility to scale fits best for you – and when. Understand differences in “FOAK” (First-Of-It’s-Kind) tech and get qualified information about what you need to scale and get access to DUDE CHEM manufacturers and top talents.

### As (PhD-) Student:

Get in contact with potential future employers from the start-up scene and manufacturers, get first hands insights into the manufacturing market and find own potential business ideas.
